

Your questions about business funding, answered.

Do you need funding for your business but don't know where to start your search? Would you like to skip the long wait times of traditional funding options? Do you want to choose between lenders that are competing for your business? If so, then Your FundingTree is the resource for you!

What types of loans are out there to help a business like mine?

No matter what category your business falls under, Your FundingTree can help! With over a dozen types of business funding solutions, such as accounts receivable financing, bridge loans, and SBA loans, we can help your business procure the funding it needs!

How long is a short-term loan?

Short-term loans are typically less than one year and can be as short as six months, as opposed to traditional long-term loans, which can range up to 25 years. Short-term loans can be very useful when a business needs to finance a large-scale business expense immediately. They can also be used to establish or re-establish a business's credit.

How does accounts receivable financing work?

Accounts receivable financing is a form of business financing that provides businesses with funding without loan repayments or debt! You provide your customer with goods or services, then instead of waiting 30, 60, or 90 days for them to pay, you submit your invoice to your factoring company. Your factoring company then advances you the cash value of your invoice and collects the amount due from your customer. This allows businesses to have constant and improved cash flow and business efficiency. Your FundingTree can find you the best factoring companies to fit your needs.

How much does it cost to get matched with lenders?

Absolutely nothing – Your FundingTree does not charge businesses for matching them with lenders! Just fill out our obligation-free application and get matched with lenders who compete for your business!

The world of business funding can be complex and confusing, but with Your FundingTree, it doesn't have to be!
